

**How does your organisation present the organisation structure, people, contact, position and profile information in a cost effective, timely and consistent way?**

OrgView is a customisable web solution that presents more than just your organisation chart.

OrgView allows people, contact, position and profile information to be easily accessed - saving cost, time and reducing the demands on your HR Department. Through a single source, everyone in your organisation can access relevant and up to date information about your people.

OrgView has the flexibility to display all information. Sensitive information can be restricted to individuals or role-based groups defined in the system.

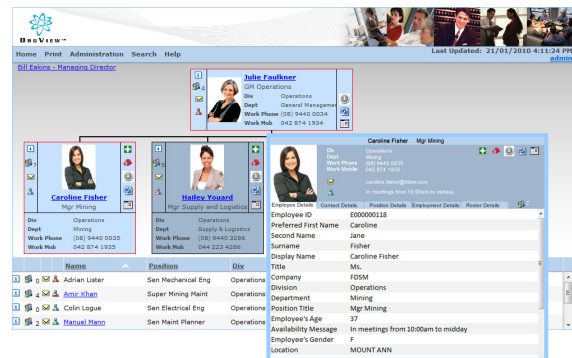

OrgView enables you to easily identify people in key roles such as Safety Warden, Fire Warden and First Aid Officer.

OrgView is easily rolled out across your organisation, presenting information in an intuitive format that requires little or no training.

OrgView has been specifically designed to allow non-IT people to administer the system and caters for changing business circumstances.

**OrgView Benefits**

- Reduces cost and time by providing a consistent and up to date view of the organisation structure, people, contact, position and profile details
- Easy to use - little or no training is required
- Allows new employees to be introduced to the organisation and its people as part of the HR induction process
- Ability to quickly identify people with specific skills or in particular roles
- Ability to display any information and restrict sensitive information
- Ability to link documents such as Employee Profiles, Role Descriptions, Rosters and Training History
- Replaces your existing telephone directory
- Identifies data issues in source systems
- Readily adapted to changing business circumstances
- Managed and administered by non IT people
- Low total cost of ownership – it is a fully developed solution
- Web based solution allowing remote access
- Low infrastructure requirements

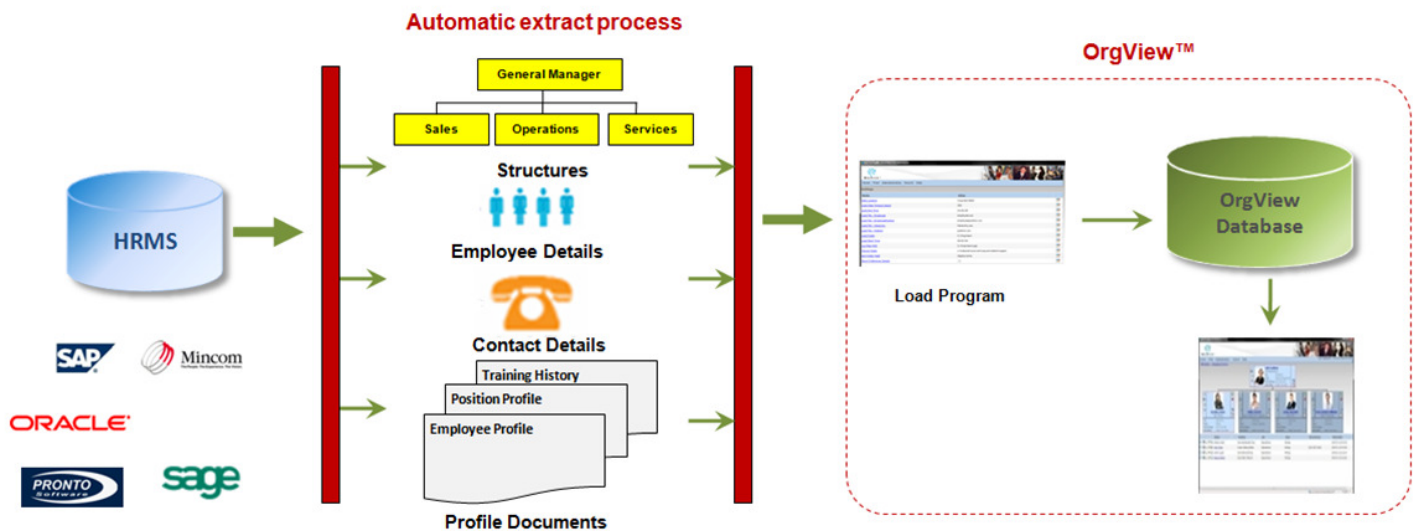

### OrgView Functionality

- Displays employee, position and contact details in the form of an organisation chart
- Displays detailed employee, position and profile information
- Displays employee photos
- Comprehensive search capabilities on any field such as Name, Position, Gender and Location
- Provides intuitive navigation
- Initiates emails via hyperlink
- Ability to assign employees to groups such as Disaster Recovery Team, Social Club and Project Teams
- Ability to display icons to indicate roles such as Safety Warden, Fire Warden and First Aid Officer
- Links to external documents such as Word, Excel and PDFs
- Ability to print or export the organisation chart
- Role based security to show or hide any information
- Automated "step-by-step" installation
- Non-IT customisation and administration
- OrgView can be used with any HR system

### How OrgView integrates with your HR system

Using simple data files provided by your HR system, the data is automatically loaded into OrgView. You can then view your people, contact, position and profile information through OrgView.

*OrgView™ - the solution for presenting your people*
